Health & Safety Experience:

Current

KCS/Alec Safety: Senior EHS Advisor

Working on Behalf of KCS at Wuxi Dundalk. The scope consists of the installation of Cleanrooms and associated works. My role supports the Lead EHS person. This includes the provision of site-specific induction, cleanroom protocol training, daily audits and ancillary EHS works.

Alec Safety: DPS-Intel Senior EHS Advisor-Manager

Working on Behalf of the client Intel, overseeing Exyte in their role as PSCS on the biggest project currently being undertaken in Ireland. One in a team of five senior EHS personnel assisting in the coordination of more than 5,000 operatives on site daily. Duties include carrying out site wide inspections and EHS audits. Overseeing EHS on entire construction of FAB 34 including all civils, construction, Mechanical, Electrical and Cleanroom installations.

Jan 2020-Mar2020 ESB Ireland.

Working on Projects throughout the East of Ireland. Carrying out site audits ensuring those in the role of PSCS on projects adhere to the ESB's SMS requirements. Inspecting Safety Documentation and participating in Pre qualifications. And updating current ESB systems.

2019 – Jan 2020 KN Circet:

Snr HSEQT officer overseeing a team of five safety advisors on utilities installations and upgrade projects to include civils, refurbishment and reinstatement works, for various 'Blue Chip' clients, throughout the Irish region. Recent works include H&S audits, inspections, documentation preparation on 38 kV ESB Cable Replacement Project from Ringsend to Leeson Street. In addition, overseeing civils and associated work at ESB substation at Carrickmines, also preparing health and safety construction phase plans and method statements and representing KN *Circet* at a ground and professional level. Further tasks include acting as PSCS & PSDP on KN's behalf, preparing and implementing ISO Management systems and auditing same. Attending client meetings, overseeing and hosting site meetings internally with vendors and direct management teams. Duties also include preparation of SMS Desktop audit information for inspection by the ESB. Positive result attained from the desktop audit Assisted KN in achieving and maintaining their standard on the ESB Contractor Safety Grading System.

Also involved in Huawei 5G project, BT civils and associated works, ENet civils and install, Aurora Telecoms civils framework, were duties include preparation of H&S plans, RAMS, Site survey inspections, preparation of PSDP preliminary plans. Assist in the preparation of tenders from a H&S perspective. Duties also include accident/incident reporting, Near Miss & Good Save recording and reporting, developing safety alerts and toolbox talks.

Jan 2019 – June 2019: Glenveagh Properties Ltd.

Health & Safety Advisor acting on behalf of the PSCS on a large house building construction project in Dublin. I am responsible for more than 100 sub-contractors to include Electrical, Mechanical, Scaffold, Block laying, civil works, Insulation and commissioning contractors. Additionally, from a health & safety perspective, I oversee all the Glenveagh site Construction, Management team and employees. All Health, Safety and Environment matters are dealt with personally and reported weekly, both directly and electronically to the Glenveagh Health & Safety Manager. Responsibility for daily site inspections and the production and conveyance of weekly site audits, site accident and incident investigation also form part of my personal duties. Also, preparation and chairing weekly site health and safety meetings are also included in my current remit. Additionally, the development and conveyance of site-specific construction phase plans, RAMS production and inspection, Traffic management plans and emergency evacuation plans are also personally produced and implemented on site.

April 2018 – Jan 2019 MTM Engineering.

Role acting as Health and safety advisor on behalf of MTM on Facebooks Data Centre at Clonee. Responsibilities included the production, communication and overseeing of all site safety documentation. Producing weekly health and safety reports, attending site safety meetings and hosting safety discussions with crew members also formed part of my remit. Monitoring particularly intricate work at height activity and forming SPAs were also an integral component of my duties.

MTM are an innovative and prominent cable installation company with the focus on HV & MV cables, to supply sub-stations, generators, and ancillary devices. Also, glanding and terminating cables and data components in both de-energised and live areas. Works carried out at both high and low level from roof and MEWP's. Electrical works carried out under strict permit and LOTO systems. Works also consist of cable tray installation and use of powered and hydraulic winches to pull cables into required data hall areas.

August 2016 – April 2018 Ardmac Ltd;

Performing on behalf of Ardmac as Health and safety advisor on the construction of large data centers in West Dublin. Tasked with documentary formation and implementation to include but not limited to, the preparation and upkeep of safety statements, assisting with and overseeing RAMS content and all Ardmac's site safety administration. Also, preparing and 'closing out' of site audits, daily inspections and monitoring of work practices.

Sep 2015-Aug 2016 – **Kilsaran-** H&S manager, manufacturing facility Piercetown.

June 2014- Sep 2015: **Collen Construction**

Health & Safety Advisor acting on behalf of the PSCS on a large construction project (Data Centre) in Dublin. Responsible for total of 235 sub-contractors to include Electrical, Mechanical, Scaffold, Insulation, and commissioning. Additionally, overseen all the Collen Construction, Management team and employees, in relation to all Health & Safety operations & procedures. All Health, Safety, Environment, & Quality matters were dealt with personally and reported to the Collen Health & Safety Manager.

Part of the team involved in the erection and energisation of a new sub-station at Amazon to include all groundworks, installation of generators and powering on under the guidance and assistance of ESB Networks.

Managing shut down and hand over of live electrical areas within the Data Centre.

2012-2014: Part time SHE Manager **Kentstown Construction** PSCS on 1 million Euro, refurbishment in Navan. Prepared all associated Health & Safety documentation acting on behalf of the PSCS. Overseen all electrical and mechanical installations and prepared RAMS for same.

2008-2009: **Rotary M&E Ireland H&S Manager** covering numerous sites in Dublin, Cork & Limerick. Overseen electrical, mechanical scaffold & Installation including all sub-contractors contracted to Rotary. Duties included rotating Inductions, training, attending safety meetings, plus preparing and updating all safety documentation as required. Overseeing shutdowns, LOTO, and work on live electrical services.

2007-2008: **Elenco Building Services** H&S Manager covering numerous sites in Dublin & Galway. I have overseen electrical, mechanical installation and acted as PSCS on numerous projects throughout the greater Dublin region. Duties included rotating Inductions, training, attending safety meetings, plus preparing and updating all safety documentation as required. Preparing RAMS for live shutdowns, working on energised equipment and work in live operational areas.

2005 – 2007: **Bowen Construction** acting as health & safety officer for PSCS on three sites, an 11 million Euro residential development in Ballymun, 18 million Euro residential & commercial development in Cork Street and 5 million Euro forwarding lounge at Dublin Airport.

2004-2005: **Glan Developments** health and safety officer 20 million residential development Tallaght, Co Dublin.

2003-2004: **PJ Walls** 50 million Euro Hilton Hotel & residential development Clare Hall, acting as health and safety officer on behalf of PSCS.

Since 2014 I have on behalf of a local PLC college, tutored on the QQI Level 5 certificate in Health, Safety and Welfare at Work
