PROFILE

6+ years developing and defining architectures, microservices, for web applications using languages and technologies such as Node, React (TypeScript – JavaScript), NestJs, Express, others Languages and frameworks like JAVA, SpringBoot, TypeORM, MyBatis, Hibernate, Guice, Jest, Junit, Angular, Vue, Bootstrap, J.S.F, Prime-faces, Docker, application servers like Nginx, Tomcat, Jboss, WebLogic, relational DB like ORACLE, Postgres, Mysql and non-relational like MongoDB, AWS services. With Skills such as Analysis, Adaptability, selft driven, continuosly improving and learning new skills, tenacity and teamwork.

EMPLOYMENT HISTORY

FULLSTACK DEVELOPER, at PAYPAL, Remote
2021 — 2023

Working with microservices architecture, developing new features, version updates, fix issues, unit Testing, services deployment. Working with React, Node, and Java miroservices applications. Using techonolgies like Docker, Postgress, express, Nest, GraphQl.

FULL STACK DEVELOPER, at Conseres LTDA, Medellin – remote
2016 — 2021

Implementing continuous integration (Jenkins), improving over 50% deployment times.

Design and development more than 20 web applications using Node, Java, frameworks and technologies like ReactJs, Nest ,Express ,Spring, Guice, hibernate, MyBatis, Junit (Unit Testing), Maven, Tomcat, Jboss, Nest, express, OracleDB, Postgres, Docker, API REST, GraphQL, SOAP, with Oracle DB, Postgres and also some applications in . Python and with non-relational DB. Deploying on testing and production environments, cloud . services, EC2, S3, Lambdas on AWS

EDUCATION

Informatic Engineer, Politécnico Colombiano Jaime Isaza Cadavid, Medellín
2008 — 2016

MACHINE LEARNING, STANFORD UNIVERSITY Online 2018
- *Linear Regression and logistic Regression.*
- *Neural Networks and statistical pattern recognition.*
- *Recommendation's System*

LANGUAGES
- *ENGLISH – Conversational*
- *SPANISH – Native*
